BY MAY MANTON

A SMART WINTER COAT

This is a very pretty and very attractive coat that can be made just as it is or with a hood and with a sash in place of the belt. The re-sults are so different that really one design means two and nothers will quickly recognize the fact. The plain cost shown on the figure is a good one for school and general usage. The cost made with the bood and sadi is a dressy garment adapted to after-noons and dressy occasions. Velvet, light weight velveteen and wood velours are favorable materials for hand one coats. For sturdy ones, cheviots, chinchilla cloth and corduroy are much in demand. In the picture, cheviot is trimmed with velvet and this co tion always is a good one. of the coat is buttoned to the left shoulder in Russian style and everything that suggests the Russian idea is fashionable this winter. In addition to its other advantages the coat is very simple and easy to make, there being only the shoulder and underarm seams, and since the pattern gives both the seams and basting line it is impossible to go astray. When a belt or such is used there are openings made through which it is passed and which give a distinctive effect and

For the four year size will be needed. 228 yards of material 36 inches wide, 2 yards of 44 inches or 176 yards 54 inch, 28 yard of velvet 20 inches wide to trim as illustrated.

The May Manton pattern 8879 is cut in sizes for children 6 months or 1 year, 2 and 4 years of age. It will be mailed to an ion Department of this paper, on receipt of ten cenes. of age. It will be mailed to any address by the Fash-

Design by May Mantos.
